Support may include assistive technology, flexible assessments, literacy/numeracy assistance, counselling, and additional tutorials.

## **7. Facilities Access**

Campus facilities are regularly reviewed to ensure compliance with accessibility requirements. Staff must provide assistance where needed, and adjustments are made before students commence courses.

## **8. Reasonable Adjustment**

Reasonable adjustments are modifications to learning or assessment to allow students with disabilities to participate equally. Adjustments must not compromise the integrity of training outcomes or safety. Factors include the nature of disability, student preferences, fairness to all parties, and resource implications.

## **9. Continuous Improvement**

Access and equity practices are reviewed annually and whenever legislative or regulatory changes occur. Student and staff feedback informs improvements.
